

ADDENDUM

to the Protocol concerning the Participation by Universities and Scientific Institutions from the Republic of Cyprus in the High-Performance Computing and Applications Programme at CERN

12.1 Enabling Grids for E-science

Funds for the participation of scientific and technical personnel from Universities and Scientific Institutions from the Republic of Cyprus in the Enabling Grids for E-science (EGEE) project.

12.2 LHC Computing Grid Project (LCG)

Funds for the development and upgrade of computer infrastructure to facilitate the participation of scientific and technical personnel from Universities and Scientific Institutions from the Republic of Cyprus in the LHC Computing Grid Project (LCG).

12.3 CERN openlab for DataGrid Applications

Funds for the participation of scientific and technical personnel from Universities and Scientific Institutions from the Republic of Cyprus in the collaboration between CERN and industrial partners with the purpose to develop data-intensive Grid solutions to be used at the Large Hadron Collider programme.

12.4 Other projects at CERN linked to High-Performance Computing

Funds to cover the participation of scientific and technical personnel from Universities and Scientific Institutions from the Republic of Cyprus in any other projects and scientific activities at CERN linked to high-performance computing and applications.

12.1	CY£ 30,000
12.2	CY£ 20,000
12.3	CY£ 10,000
12.4	CY£ 10,000
Total	CY£ 70,000
